Fitted Furniture

Slab midnight grey, slim depth - see page 43

Shaker midnight grey, standard depth - see page 41

Adding the finishing touches to your fitted furniture creates a unified look and maximises the space available in your bathroom. All units have soft close hinges and basin units feature an adjustable shelf, removable back panel for easy pipe access and a 50mm plumbing void. Floor cupboards have a reversible door for ease of access.

Choose from 2 door styles in a range of contemporary finishes, work out which mix of units works best for your space and then add all the finishing touches. It's easy to plan your new bathroom, simply follow the step by step guide below.

1 Door Styles & Finishes

Choose your desired door finish in either 'slab', 'shaker' or 'J-Pull' style.

2 Combination & Depth of Units (Pages 41-44)

Assess the space you have available in your bathroom & work out which units you need. Choose from standard depth (353mm) or space-saving slim depth (218mm) units.

3 Handles (Page 45)

Choose your handle style from the 6 available options.

4 Worktops (Page 45-46)

Select a worktop from either our Strata solid surface or laminate options.

Alternatively, for a sleek contemporary look, opt for our Isocast worktops with integrated basin, available to fit both standard and slim depth units.

5 Panels & Plinths (Page 46)

Select the plinths to fit your furniture run and any panels you may need. Filler panels can be cut down and used with a worktop to fill a void in a wall-to-wall installation.

6 Mirrors & Wall Units (Page 46)

Choose a mirror and add any useful wall units.

7 Lighting Option (Page 47)

Select a stylish lighting option.

8 Coordinating Bath Panels (Page 47)

Select a coordinating bath panel.

9 Sanitaryware (Pages 52-123)

Choose your sanitaryware options from the wide range of Instinct semi-countertop basins and back to wall WC pans.

10 Tap Options (Pages 196-235)

Complete your bathroom with an Instinct basin mixer.

9 Sanitaryware

For ceramic basins and WC pans please choose your semi-countertop basin and back to wall pans from the Instinct Sanitaryware range.

10 Tap Options

Add the finishing touch to your bathroom with an Instinct tap.

Fitted Furniture Selections

To make things easier to order we have gathered together below some very commonly used configurations of fitted furniture. These cover three furniture widths, a 1000mm, 1200mm or 1500mm run. Each configuration is available with either contemporary slab, classic Shaker-style or J-Pull Doors and with a number of finishes in each style.

Make sure you select the correct left or right hand basin option for your room layout, and pick the configuration which works best for you, in the style and colourway of your choice. Then simply order the single code which includes all the components you need.

**Note: price does not include Keros Back to Wall WC and Seat shown or Basin Mixer, Concealed Cistern and Flush Button. To order separately, see pages 80-83 Keros for WC and Seat, page 196 for Basin Mixer choices, page 130 for Concealed Cistern and page 132 for Flush Button.*

Quick Release Hinges

Easy to operate quick release hinges are featured on some toilet seats, allowing the seat to be lifted away easily, leaving clear access to clean hard to reach surfaces.

Top Fix Hinges

Some seats feature a special 'top fix' hinge allowing them to be quickly and easily installed on modern WC pans.

Soft Close Hinges

The hydraulic hinge mechanism ensures controlled and quiet closure of the seat lid and ring. Mechanisms are extensively tested to ensure long life.

Secure-Fix 

Secure Fix - How Does it Work?

1 Place the template

Place the template over the anchor pins on the pan.

2 Select the correct position

Select the appropriate hole by measuring the required distance from the template to front of pan or using the holes stated.

3 Insert the bolts

Insert the bolts into the correct holes and tighten.

4 Cover & click

Add the cover plate and click the seat into place.

Torridon 98°C Hot Water Tap

Instant boiling hot water tap system with eco-friendly design, providing safety, energy-saving, convenience, and luxury for your family.

Compact Design
The tap offers normal hot, cold and instant filtered boiling water, providing convenience and saving space

Eco-friendly
Water saving neoperl aerator, just use the amount of water you want

Safe & Easy to Use
Separate flow technology for the spout, which ensures the tap surface keeps cool, avoiding the risk of scalding

Family Friendly
Child lock technology prevents accidental burns

£777.⁰⁰
Torridon 3 in 1 98°C Hot Water Tap

Description	Code	Price
Torridon Instant 98°C Boiling Filtered Water Kitchen Sink Mixer with Anti-Limescale & Bacterial Water Filter in Chrome	INST-7100A	£777.00

- Features:**
- Guarantees - 10 Year on brass body, 5 Year on finish against manufacturing faults, 3 Year for cartridge & 1 Year for all other serviceable parts
 - The tap is produced from high quality brass, delivering purer water
 - Ceramic disc flow control • Operates from 0.5 Bar pressure
 - Swivel spout is 360°, easy to control

2.4 Litres Under-Counter Boiler

- Features:**
- Tank - Insulated Stainless Steel 304
 - Temperature - Instantly hot water 95°C & 98°C
 - Capacity - 2.4L
 - Cert - CE, ROSH, IPX4, WRAS
 - 1 year warranty
- The tank must be installed with the water filter to keep the warranty valid. The water filter need to be regular changed or replaced to avoid system dust and limescale going into the tank.

Replacement Ceramic Water Filter

Instinct Wetroom Solutions

The perfect way to create a wetroom - tailored to your own style

The collection features our Wetroom Panel options, which can be fitted to our low level shower trays or straight to floor to create a true wetroom.

We present a number of panel sizes and options, to help you create your perfect bathroom sanctuary. Included are the various configurations that are available to suit you and your bathroom.

All Panels are 2000mm high and available in either 8mm glass thickness or 10mm glass thickness.

Selecting your configuration

Select the size of panel you require in either 8 or 10mm glass thickness; select your configuration; select between a fixed or pivoting deflector panel; and select your desired bracing bars.

Corner Panel. Fixed Deflector Panel. Low Level Brace.

Corner Panel x2. Fixed Deflector Panel. Low Level Brace with Side Panel Brace.

Corner Panel x2. Glass to Glass Panel. Fixed Deflector Panel. Ceiling Brace and Straight Brace Kit.

Corner Panel. Low Level Brace.

Linear Panel. Pivoting Deflector Panels x2.

Corner Panel x2. Glass to Glass Panel. Pivoting Deflector Panel. Low Level Brace x2.

Wetroom Panels - Black

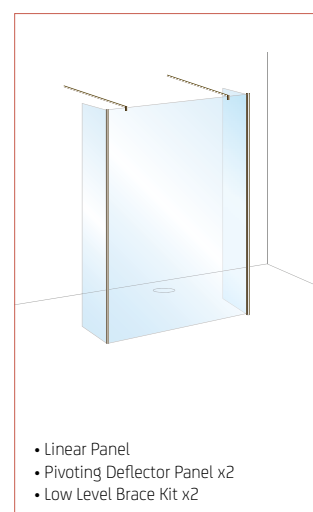

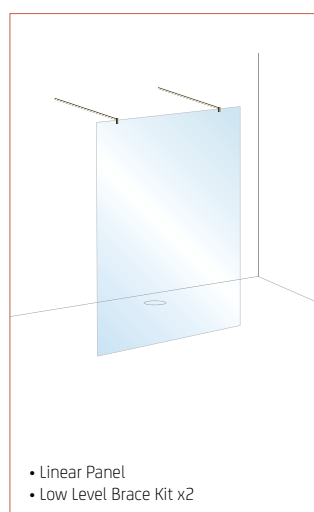

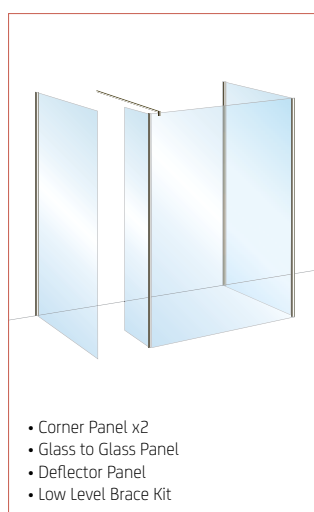

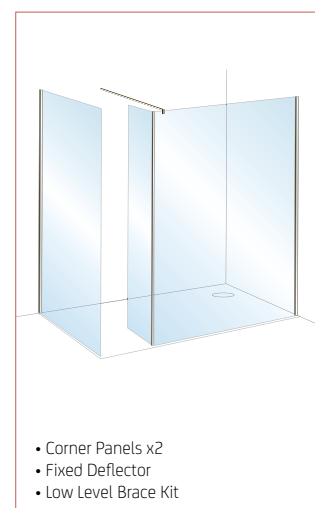

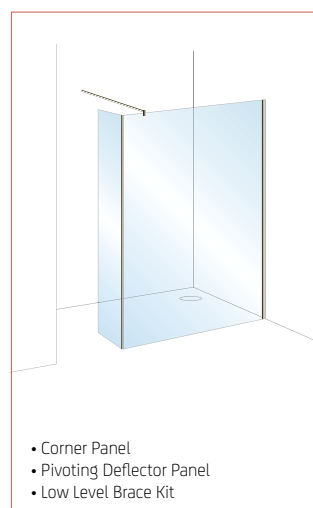

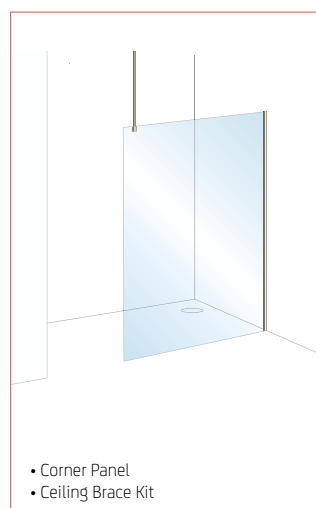

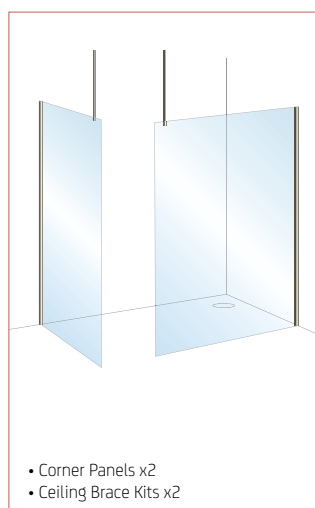

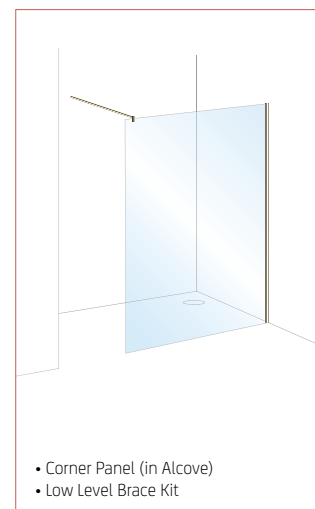

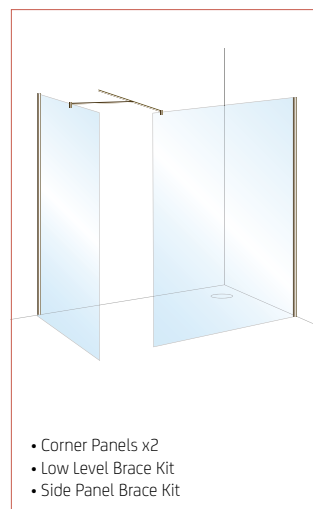

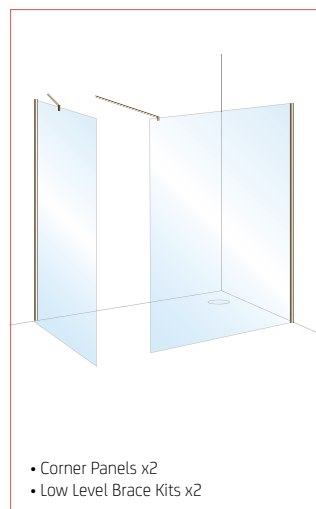

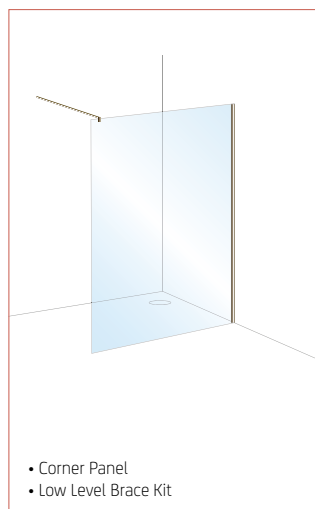

Wetroom Panels - Brushed Brass

Wetroom Panels - Brushed Nickel

Wetroom Configurations

This is just a selection of configurations which can be created using either 8mm or 10mm Select glass panels.

Designed and manufactured in the UK specifically for the UK market, Abacus Elements level-access shower trays are the ultimate way to create the perfect, secure wetroom. Supplied with full installation kit and high capacity drain.

The most comprehensive wetroom system on the market, for complete peace of mind and total reassurance of an entirely 100% waterproof finished room, all backed with a 15 year guarantee*.

Product Shown:
Infinity 1800 x 900 Mid Wall Drain

300mm Linear Drain Level Access Kit

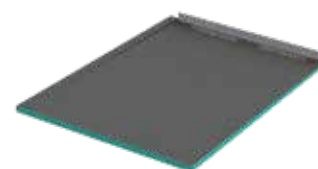

- 30mm thickness
- Level Access
- 300mm Linear Stainless Steel Drain Cover
- Comprehensive Install kit (trap and cover included)
- Can be cut to size
- For use with tiles only (not suitable for vinyl)

600mm Linear Drain Level Access Kit

- 30mm thickness
- Level Access
- 600mm Linear Drain
- Comprehensive Install kit (trap and cover included)
- Can be cut to size
- For use with tiles only (not suitable for vinyl)

Infinity Single Fall Linear Drain Level Access Kit

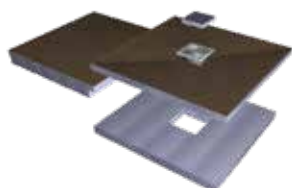

- 30mm thickness
- Level Access
- Tileable Linear Drain
- Comprehensive Install kit (trap and cover included)
- Single Fall Tray
- Can be cut to size
- For use with tiles only (not suitable for vinyl)

300mm Linear Raised Concept Kit

- 50mm or 140mm above floor options available
- Raised Tray
- Comprehensive Install Kit (trap and cover included)
- Can be cut down to size
- 300mm Stainless Steel Linear Drain
- For use with tiles only (not suitable for vinyl)

Square Drain Raised Concept Kit

- 50mm or 140mm above floor options available
- Raised Tray
- Comprehensive Install Kit (trap and cover included)
- Can be cut down to size
- Square Drain
- For use with tiles only (not suitable for vinyl)

Level Access Square Drain

- 30mm thickness
- Level Access
- Stainless Steel Square Drain Cover
- Comprehensive Install kit (trap and cover included)
- Can be cut to size
- For use with tiles only (not suitable for vinyl)

Raised Wetroom Kits - Square Drain

Raised Wetrooms 130mm

Description	Code	Price
Concept Kit 1 - 1850 x 900 x 130mm Square Drain	PHGWR-KS15-1809	£987.00
Concept Kit 4 - 1850 x 750 x 130mm Square Drain	PHGWR-KS15-1807	£958.00

Features:

- The Concept 1 & 4 is designed for use where the customer cannot or chooses not to site the drain within the floor. This system is also suitable where longer runs are required for drainage pipework not achievable within the floor, up to 1.5m from the waste to the soil pipe. This typically will be used for apartment buildings or awkward joist locations on timber floors

Raised Wetrooms 50mm

Description	Code	Price
Concept Kit 3 - 1850 x 900 x 50mm Square Drain	PHGWR-KS05-1809	£839.00
Concept Kit 6 - 1850 x 750 x 50mm Square Drain	PHGWR-KS05-1807	£803.00

Features:

- The Concept 3 & 6 kit is designed principally for the replacement of a bath or the creation of a long, low-height shower area. This creates a 50mm raised wet area within the bath or shower room

Installation & Drainage Kit

All our shower tray kits come complete with a full installation kit.

Installation & Drainage Kit includes:

Pro-SEAL Premix, wood floor primer, square horizontal shower waste, Fix-KST, Fix-MD, waterproof tape, waterproof internal corners, tile guide, paint brush, protective gloves, notched trowel.

Raised Wetroom Kits - Linear Drain 300mm

Raised Wetrooms 130mm

Ultimate build quality 'behind the tiles'

Build your Bathroom & wetroom in 3 simple steps

We've made it as simple as possible to achieve your perfect wetroom.

With a comprehensive range of shower trays and complementary shower screens plus a selection of tile backer boards for wall and floor, you can create an aspirational space that combines cutting-edge design with industry-leading waterproofing properties.

1 Waterproof your bathroom behind the tiles

We recommend using our Tile Backer Boards and Waterproofing Components for a fully waterproof installation on the walls and floors.

2 Create beautiful wetrooms

Designed and manufactured in the UK specifically for the UK market, Elements wetroom shower kits are the ultimate way to create the perfect secure wetroom.

Whether your requirement is fully level access or raised wetrooms we can accommodate your needs.

Supplied with full installation kit and high capacity drain.

3 Design waterproof recessed shower storage

Designed for pre-wall installation to make excellent use of space otherwise lost. Manufactured from the same high grade material used to produce our waterproofing building product range, our selection of recessed storage is fully waterproof and ready for installation.

Tile Backer Boards

Ideal product to waterproof and insulate in one operation prior to tiling makes your bathroom last longer, thus making your bathroom an investment. Also reduces mould, making it a much healthier option for any tiling project

Boards can be ordered singularly

Mini Boards

Description	Thickness (mm)	Size (h x w)	Pack Content	Weight Each (kg)	Pallet Qty	Code	Price (each)

About Multipanel - The UK's Best Selling Bathroom Wall Panels

Create beautiful spaces with our waterproof bathroom wall panels, the luxurious and modern way to decorate your bathroom. Our beautiful wall panel collections come in a range of sizes and finishes, including marble, stone and wood, offering you a range of design possibilities, allowing you to reinvent your bathroom in a style that is uniquely yours.

Our unique Hydrolock installation system makes it possible to join panels from our Linda Barker, Heritage, Classic and new Neutrals Collections together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for grout, meaning less time cleaning grout lines and mould. Panels in our plywood collections are also Forest Stewardship Council (FSC C128180) and Made In Britain certified, meaning that they are made in the UK from sustainable materials, helping to protect our forests for the future.

Tiles, it's time to move on.

Why choose Multipanel?

Joint with
Hydrolock®

*Hydrolock® Technical Information

When manufacturing Hydrolock joints, 20mm is lost from the original panel width, e.g. 2400 x 598mm = 2400 x 578mm finished face size
2400 x 1200mm = 2400 x 1180mm finished face size

Multipanel Profiles

Description	Mill Finish Price	Bright Silver Price	Satin Silver Price	White/Black Price
Internal Corner (Type A)	-	£43.00	£21.00	£23.00

Base Profile (Type X)	-	-	£23.00	-

Invisible Corner

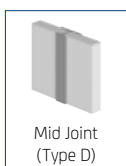

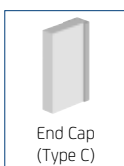

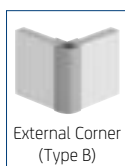

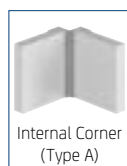

Our new 'invisible' internal corner profile has a hidden edge for a completely metal free finish. Simply slot the panels into place and seal with your chosen sealant colour. The Invisible Corner is perfect for straight walls and is compatible with our plywood collections (Neutrals, Linda Barker, Classic, Heritage).

With the profile completely hidden from view, the Invisible Corner is supplied in Aluminium only.

Description	Mill Finish Price	Bright Silver Price	Satin Silver Price	White/Black Price
Invisible Corner (Type 101)	£26.00	-	-	-

Features:

- All profiles 2450mm

The Neutrals Collection

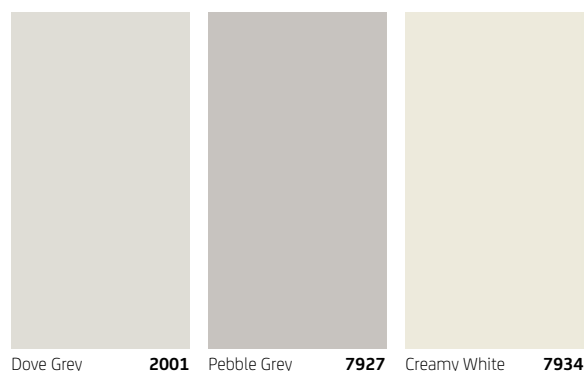

Concrete Elements, The Linda Barker Collection with Pebble Grey, The Neutrals Collection

Created to pair perfectly with some of the bolder panels from Multipanel's other plywood collections (Linda Barker, Classic & Heritage), the new Neutrals Collection allows for greater flexibility in full room design by allowing panels to be mixed and matched like never before.

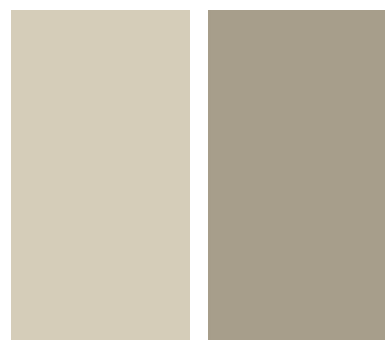

Feature walls can be created using best sellers such as Calacatta Marble (Linda Barker Collection) and paired with Dove Grey (Neutrals Collection) for a complete wall panel installation. These 5 new decors have a stunning eggshell finish and are available with Multipanel's unique tongue and groove installation system, Hydrolock, for a fast, join free finish.

How to Style the Neutrals Collection

Pair bold, feature wall panels from our Linda Barker, Heritage and Classic Collections with the subtle tones from the Neutrals Collection to create a bathroom design that is uniquely yours. We've selected our favourite pairings to help you get started.

Hydrolock®

Multipanel panels are available with Hydrolock® tongue and grooved edge for easy click-into-place installation.

Hydrolock Installation

To ensure our panels can be installed to show off their true potential, we created Hydrolock, a unique solution which makes it possible to join panels from our plywood collections (Neutrals, Linda Barker, Heritage and Classic) together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for profiles and can even be installed on uneven walls. Hydrolock panels are available in a range of widths for ease of installation; 2400 x 598 mm, 2400 x 900 mm, 2400 x 1200 mm.

The Hydrolock joint reduces the finished face by 20mm i.e. 2400mm x 1200mm becomes 2400 x 1180mm. Straight edge panels are also available.

About Fibo

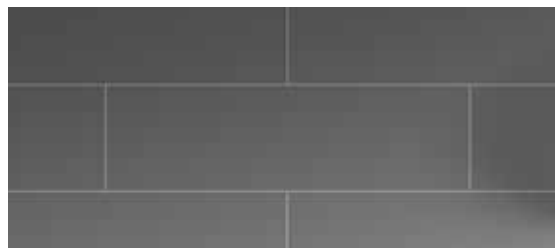

Designed and manufactured in Norway - the home of wood technology and contemporary Scandinavian styling – Fibo is the leading supplier of waterproof wall panels. Starting out quite modestly in 1952 with a small factory, today we operate a multi-million pound award-winning factory producing panels for over 100,000 bathrooms a year.

Tried and tested in Norway for almost 70 years, Fibo was the first to make the 'click' system for walls. The smooth and strong surface can withstand both direct water spray and large temperature fluctuations. Quick to dry, easy to clean, and simple to install. You are guaranteed a result that will last for many years.

Aberdeen Brick, Pop of Colour Contemporary Tile Effect Collection

Did you know?

Fibo is the only wall panel supplier in the UK who router out a realistic grout line into the panels, creating an even more realistic and 3D tile effect, that you can feel as well as see. Positioned carefully over the panel joints – the grout lines are so realistic that you'll struggle to tell the wall is panelled and not tiled. Plus, Fibo wall panel surfaces are all antibacterial so there's no more cleaning mould and worrying about bacteria growing between tiles anymore. Why tile, when you can Fibo?

Luxury Feature Panels

Grey Concrete, Luxury Feature Panel

Blend or contrast feature panels to add that touch of luxury. Go wherever your mood takes you.

Description	Price
Luxury Feature Panels	£150.00

Features:

- Size - 2400 x 300mm
- Tile sizes vary

Warmup®

The world's **best-selling** floor heating brand™

Electric Underfloor Heating

Introduction

Warmup's electric underfloor heating systems are highly suitable for refurbishment projects and nearly all electrical systems can be fitted onto existing subfloors and work with almost all flooring finishes.

Electric Underfloor Heating is a cleaner, more efficient way to heat a home. Floor heaters require much less energy to reach optimal comfort temperatures than traditional centrally-heated radiators and when installed in conjunction with Warmup's Insulation Boards and a Smart Thermostat, you can expect huge savings on heating bills too.

Benefits

Warmup Underfloor heating transforms your room into a sanctuary of warmth.

Design Freedom and Low Maintenance

With no bulky radiators to take up valuable wall and floor space, our systems are a designer's dream.

Suitable for Every Room Type

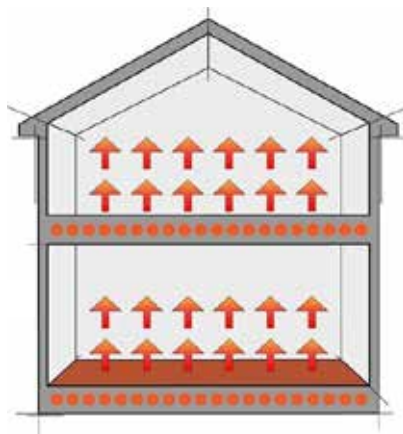

Thanks to the availability of a wide range of products and systems, there is a solution for virtually any project type whether new-build, refurbishment, retrofit, or renovation.

Cost Savings and Increased Energy Efficiency

Zoning your house with underfloor heating is simple, and unlike traditional systems that run all rooms at the same time, you can set the heating for individual rooms where and when you need it.

Comfort through Even Heat Distribution

Underfloor heating spreads warmth over the entire floor area using low-temperature radiant heat, rather than the high-temperature "point heating" associated with radiators.

There are no cold spots as it covers the entire floor, making for a comfortable environment

Reducing Heat Loss & Energy Consumption

There are several ways to reduce energy consumption and heat loss. These include:

- Improving the insulation of the property (reduction of conduction losses)
- Reducing air leakage (reducing convective losses)
- Reducing energy consumption by using efficient heating methods

The overall heat loss can be decreased by looking at all of the above and by adding insulation or by ensuring that there are no gaps in the existing insulation. For underfloor heating, insulation boards are essential in reducing heat loss to the subfloor and ensuring a fast heat up time.

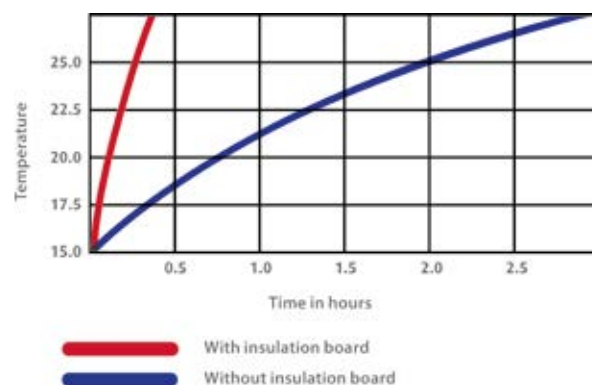

Running Costs

Underfloor Heating can offer substantially lower running costs compared with traditional central heating. Running costs can vary depending on your home's design, how well insulated it is, what energy tariff you are on and how you control and monitor your homes heating.

Running Time

Room Type	Heated Area	AM	PM	Winter Cost*
Bathroom	4m ²	2hrs	1hr	£24.26
Kitchen	5m ²	1hr	2hrs	£30.33
Lounge	15m ²	0hrs	3hrs	£85.27

*Assumptions: 12.66p/kWh - system on 6 months (182 days) per year. System installed on 10mm Warmup® Insulation Board. **Avg. running cost after initial heat-up period = 0.85p/m²/hr. For more details visit www.warmup.co.uk

Applications

Underfloor Heating Solutions for any Project. Radiant heating is compatible with almost all floor finishes and room types in your house.

Insulating your floor prevents the thermal mass from escaping downwards, significantly reducing the amount of heat absorbed by the subfloor.

4 Simple Steps To Calculate The Area For Electric Floor Heating Systems

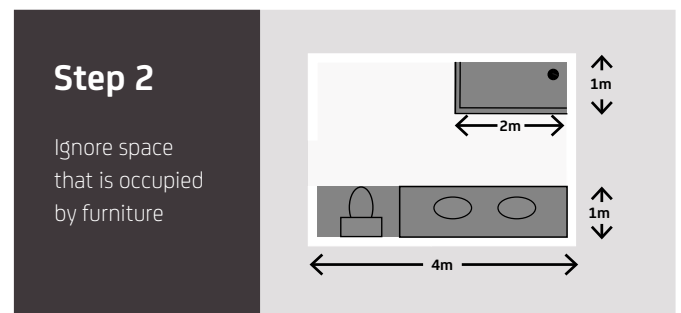

First, determine the available room floor space. This is the total amount of floor area, reduced by the area occupied by fixed objects, ie kitchen cabinets, bath, etc.

You only need to heat the area you will walk on.
We advise you to place at 5 centimetres away from the walls.

Work out the total floor area.

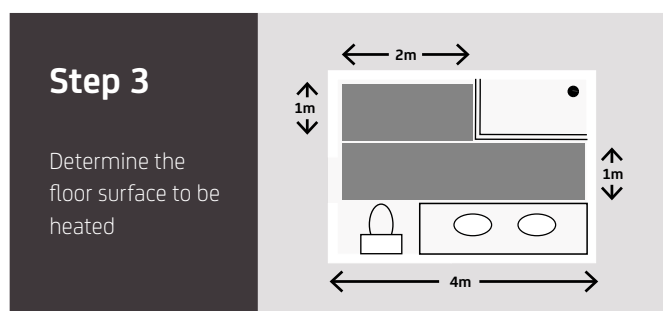

If the overall space is rectangular in shape, for example 4m by 3m, you only have to multiply both numbers, giving you **12m²**

Calculate how much of the floor space is occupied by fixed objects, such as shower tray, sink, etc.

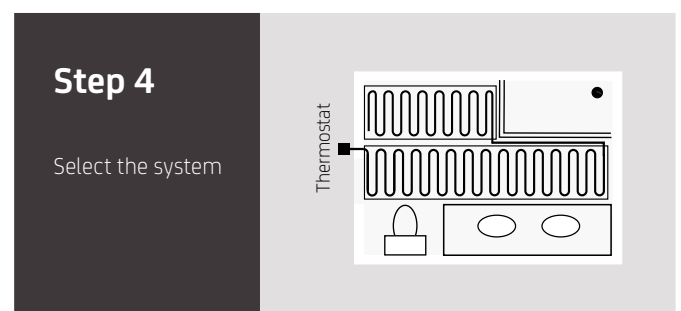

Start with the big items and finish with small items.

Area occupied by furniture: $4\text{m}^2 + 2\text{m}^2 = 6\text{m}^2$

From step 1 and step 2 you now know how much fixed space you need:

Step 1: 12 m² Step 2: 6 m²

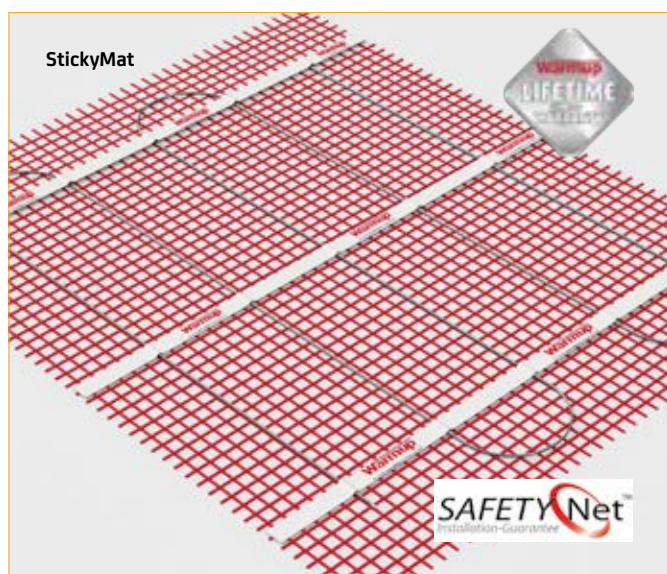

Now calculate the amount of free floor space for your Warmup cable or mat:

Surface to be heated: $12\text{m}^2 - 6\text{m}^2 = 6\text{m}^2$

StickyMat

- The thinnest dual-fluoropolymer coated heating wire (less than 1.8mm diameter)
- StickyMat with pressure sensitive adhesive, for the fastest and most secure installation
- Can be repositioned easily without losing adhesion
- The pressure sensitive adhesive ensures that no wire or mesh is raised when tiling or covering with a self-levelling compound

StickyMat 150W/m²

DCM-PRO

The DCM-PRO is the fastest solution for the installation of a heated decoupling system in all areas, installing electric underfloor heating in minutes with less tile adhesive because of its self-adhesive backing. The self-healing decoupling layer of the DCM-PRO mat protects floor finishes from damage. The layer contracts and expands to deal with structural movements in subfloors due to seasonal changes, preventing damage from occurring to floor coverings.

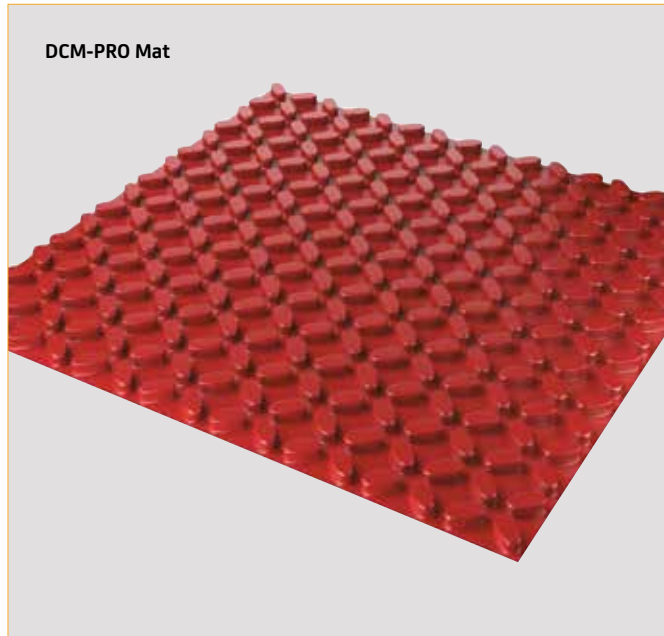

DCM-PRO Cable

Description	Code	Price
DCM-Pro cable 150W 10.9m for 1m² coverage	DCM-C-1	£121.00
